

ZEBRA TECHNOLOGIES — ZEBRA® ZXP SERIES 8™

SEE MORE. DO MORE.

With Zebra's innovative ZXP Series 8 retransfer card printer, customers can achieve **industry-best throughput** while achieving **superior, photo-like image quality**. The ZXP Series 8 is **ideal for high-security ID applications** that require durable and abrasion-resistant cards. The printer produces **extremely high-quality images**, including in applications with difficult card image templates or uneven print surfaces, such as smart cards.

Value Proposition

- Highest image quality and print resolution
- True edge-to-edge printing (via over-the-edge printing)
- The ability to print on PVC and non-PVC cards
- Fraud protection, since the film is inherently tamper-evident

Key Benefits

- Stunning photo-like cards
- Dual-sided simultaneous retransfer process provides best-in-class printing, encoding and laminating throughput
- Zebra i Series™ intelligent ribbon and transfer film calibrate the printer to optimize performance and improve speed
- Wasteless single- or dual-sided lamination
- Zebra custom design services offer customized laminate hologram for enhanced security

Applications

- Government-issued drivers licenses and high-security ID cards (drivers licenses, national IDs)
- High-security employee ID and access control cards
- Instant issuance bank cards
- Personalized gift, loyalty and membership cards
- National ID and voter registration cards

Conversation Starters

“ Do you need to store or encode data on your cards?”

“ Do your cards need to last more than three years or require lamination for additional durability or security?”

“ What type of security concerns do you have?”

“ How do you manage your staff and visitor IDs?” ”

ZEBRA TECHNOLOGIES — ZEBRA ZXP SERIES 8

SEE MORE. DO MORE.

Key Features

- USB and Ethernet connectivity
- Intelligent media technology
- Over-the-edge retransfer printing
- Two-year printer, lifetime printhead warranty
- 150-card capacity feeder (30 mil card thickness)

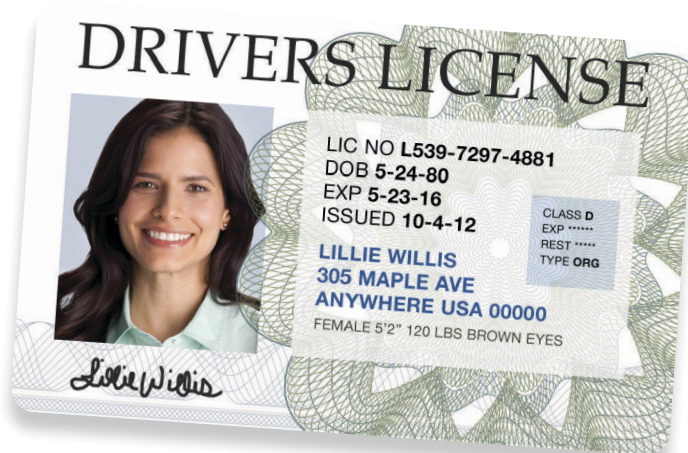

Print Speed (CPH = Cards per Hour)

Single-sided : Color: 190 CPH

Dual-sided : Color: 180 CPH

Optional Features

- Laminator: single-sided and dual-sided
- 802.11b/g wireless connectivity
- Magnetic stripe encoder
- Contact and contactless smart card encoder
- Lockable enclosure/card feeder
